

## ARE YOU LOOKING FOR FUN WAYS TO IMPROVE YOUR KIDS READING CULTURE?

It can be hard trying to get kids to read and focus at the same time.

I know how hard it is because I have been there.

Being a teacher of elementary school for at least 3 months of my life exposed me to the power of visuals and imagery in the intellectual building of kids.

At first, I used to think "why so important" but soon I realised it should never be less important. Otherwise, a child would struggle to focus while learning and even lose the fun part of learning.

This is what StoryAi will help you achieve for your kid as a teacher and as a parent.

### What is StoryAi?

StoryAi is a kid's story illustrator using Ai. It helps you generate stories written in text into drawing and imagery that kids can relate to.

#### Reasons you should use StoryAi for your kids:

1. **It helps to keep focus while reading:** Kids struggle to focus while reading but, with an Ai that can display written stories in imagery form your kid can focus better while reading stories.
2. **It improves the comprehension of your kids:** Have you ever asked yourself why kids could forget what was read to them in a second? That's because their mental capacity is too low to absorb whatever is not exciting.

Visuals make reading exciting for kids and in return it helps their mental comprehension and improve their retention of new knowledge.

3. **It improves reading interest:** StoryAi makes reading fun for your kid even for the kids who seem to have low interest in reading. This is a good way to improve your kid's interest in reading.

Every child can do well intellectually if you put in the right work.

## YOU CAN AUTHOR AS MANY STORYBOOK AS POSSIBLE WITHOUT HIRING AN ILLUSTRATOR

Are you tired of hiring storybook illustrators whose service charge can be outrageous?

Worry no more!

While many authors like you complain of the cost of hiring an illustrator, you can smile knowing that with StoryAi your storybook can be published in hours.

Instead of spending too much to hire book illustrators you can use StoryAi to create and publish your storybook.

**How StoryAi works as an illustrator:**

1. You simply write your story in text format and it automatically generate it into drawings and image for you.
2. You can also use keywords or prompts to generate an image or illustration. Depending on what you want for your reader.

**CHECK OUT THIS AMAZING FEATURE OF STORY AI**

There is absolutely no limit to what StoryAi has to offer you. Just when you think you have seen it all, you will see yet another mind blowing feature in store for you.

This time it is the amazing feature that allows you generate drawings and imagery for your storybook by simply using a keyword/prompt related to your story.

For example,

If you want to generate an illustration for this text "The princess was on her way to the palace when her crown suddenly fell off. She bent to search for it but couldn't find it".

The perfect keyword to generate an illustration for this may be "princess is searching for her missing crown" . That way the image will display exactly what you want.

Have you tried this feature yet?

**BENEFITS OF IMAGE STORYBOOK IN BUILDING READING SKILLS**

Image storybook for kids are building blocks that help increase vocabulary skills, grammar and story analysis.

For kids especially within age 2-9 years, images are an important part of learning how to read. This method helps in the development of language for kids.

**Important benefits of visual storybook:**

1. **Increasing engagement:** Image storybook allows kids to engage attentively while teachers and parents spend time discussing the story, words and images. This help kids confidently talk about what they see on the page and what happened in the story.
2. **Makes reading fun:** Image storybook always make reading fun for kids. If a kid is engaged more with storybook without images, reading will become boring and appear to be work rather than fun. This might affect a child's interest for reading books.
3. **Allow greater comprehension:** Images in a storybook help children understand what they are reading. The illustration help to understand words that seem difficult for their comprehension which can increase their comprehension.
