TEAM POWERDRILL TASK: THE KIDS STORY ILLUSTRATOR UI APP

- Kid story illustrator works with an author to create images that explain the text in the story line showing the characters and description of objects, meaning an illustrator must have a strong connection of what the author tends to write, writing or publish. A kid's paperback is an inventive expert liable for the emergent of pictures in tome that are envisioned for children. It is very necessary for illustrators using UI to craft drawings that fits and provides clues of the background to assist the reader know what they are reading or listening easily. A child tends to understand his environment with the use of objects or materials or animations, visuals better than an abstract way. Kids can easily relate to the writings when an illustrator (image) is used, their minds get easy understanding of what they are hearing. Illustrations does not just create pictorial order but support painterly dissection on screen and also bring closer attention to the most important parts of the scene. This app designers saw the need to create a way user can focus to certain text or action they want, just by adding the right image directly to the storybook.

FEATURES OF THE KID STORY ILLUSTRATOR APP

- The story illustrator app UI is an illustration, conception or a cartoon made by an artist or designer; such as, a drawing, sketch, painting, photograph, or other kind of image of things seen, remembered or imagined, using a graphical representation
